To start using AjaXplorer, follow these easy steps:

Go to <http://ASart.gwpi.net> (no www)

Enter your username/password. Please check with your Account Executive for your login information.

- Your personal login: **[username]**
- Your personal password: **[password]**

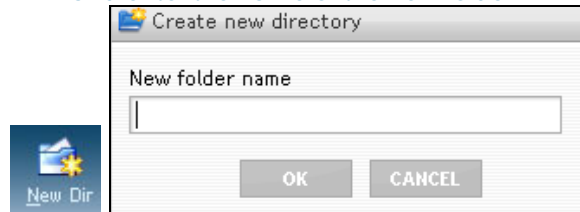

The Art Department will be automatically notified via email when a client has uploaded any file to the AjaXplorer. However, you may email the Art Department or your Account Executive regarding details of how you want the files to be used.

In AjaXplorer, all of the functions you need are located in the buttons at the top of the page.

To Upload Files:

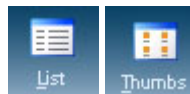

- Navigate to the folder you want your files to be placed in. If you want to create a new folder, click on "New Dir" and enter the name of the new folder.

- Click on **Upload > Browse**. Select the file(s) you want to upload from your computer.

- Click on **Send** to start the upload.
- **Close** the small window when done.
- The preview of the image (all except TIF files) will be located in the lower left hand corner.
- You may also alternate how you view your files in the system. You can view your files in a Thumbnail or List view. To do this, click on "Thumbs" or "List" icon.

Preview your files:

- Highlight the file(s). You may select multiple files by holding down the CTRL button while clicking on the files.
- Select **View selected images** link at the bottom left hand corner.

Download your files:

- Highlight the file(s). You may select multiple files by holding down the CTRL button while clicking on the files.
- Select **Download** link located at the bottom left hand corner OR click on the **Download** icon located at the top navigation. If you are downloading multiple files, they will be combined into a single compressed ZIP file for fast and easy downloading.
